

# WHITE WATER PARK

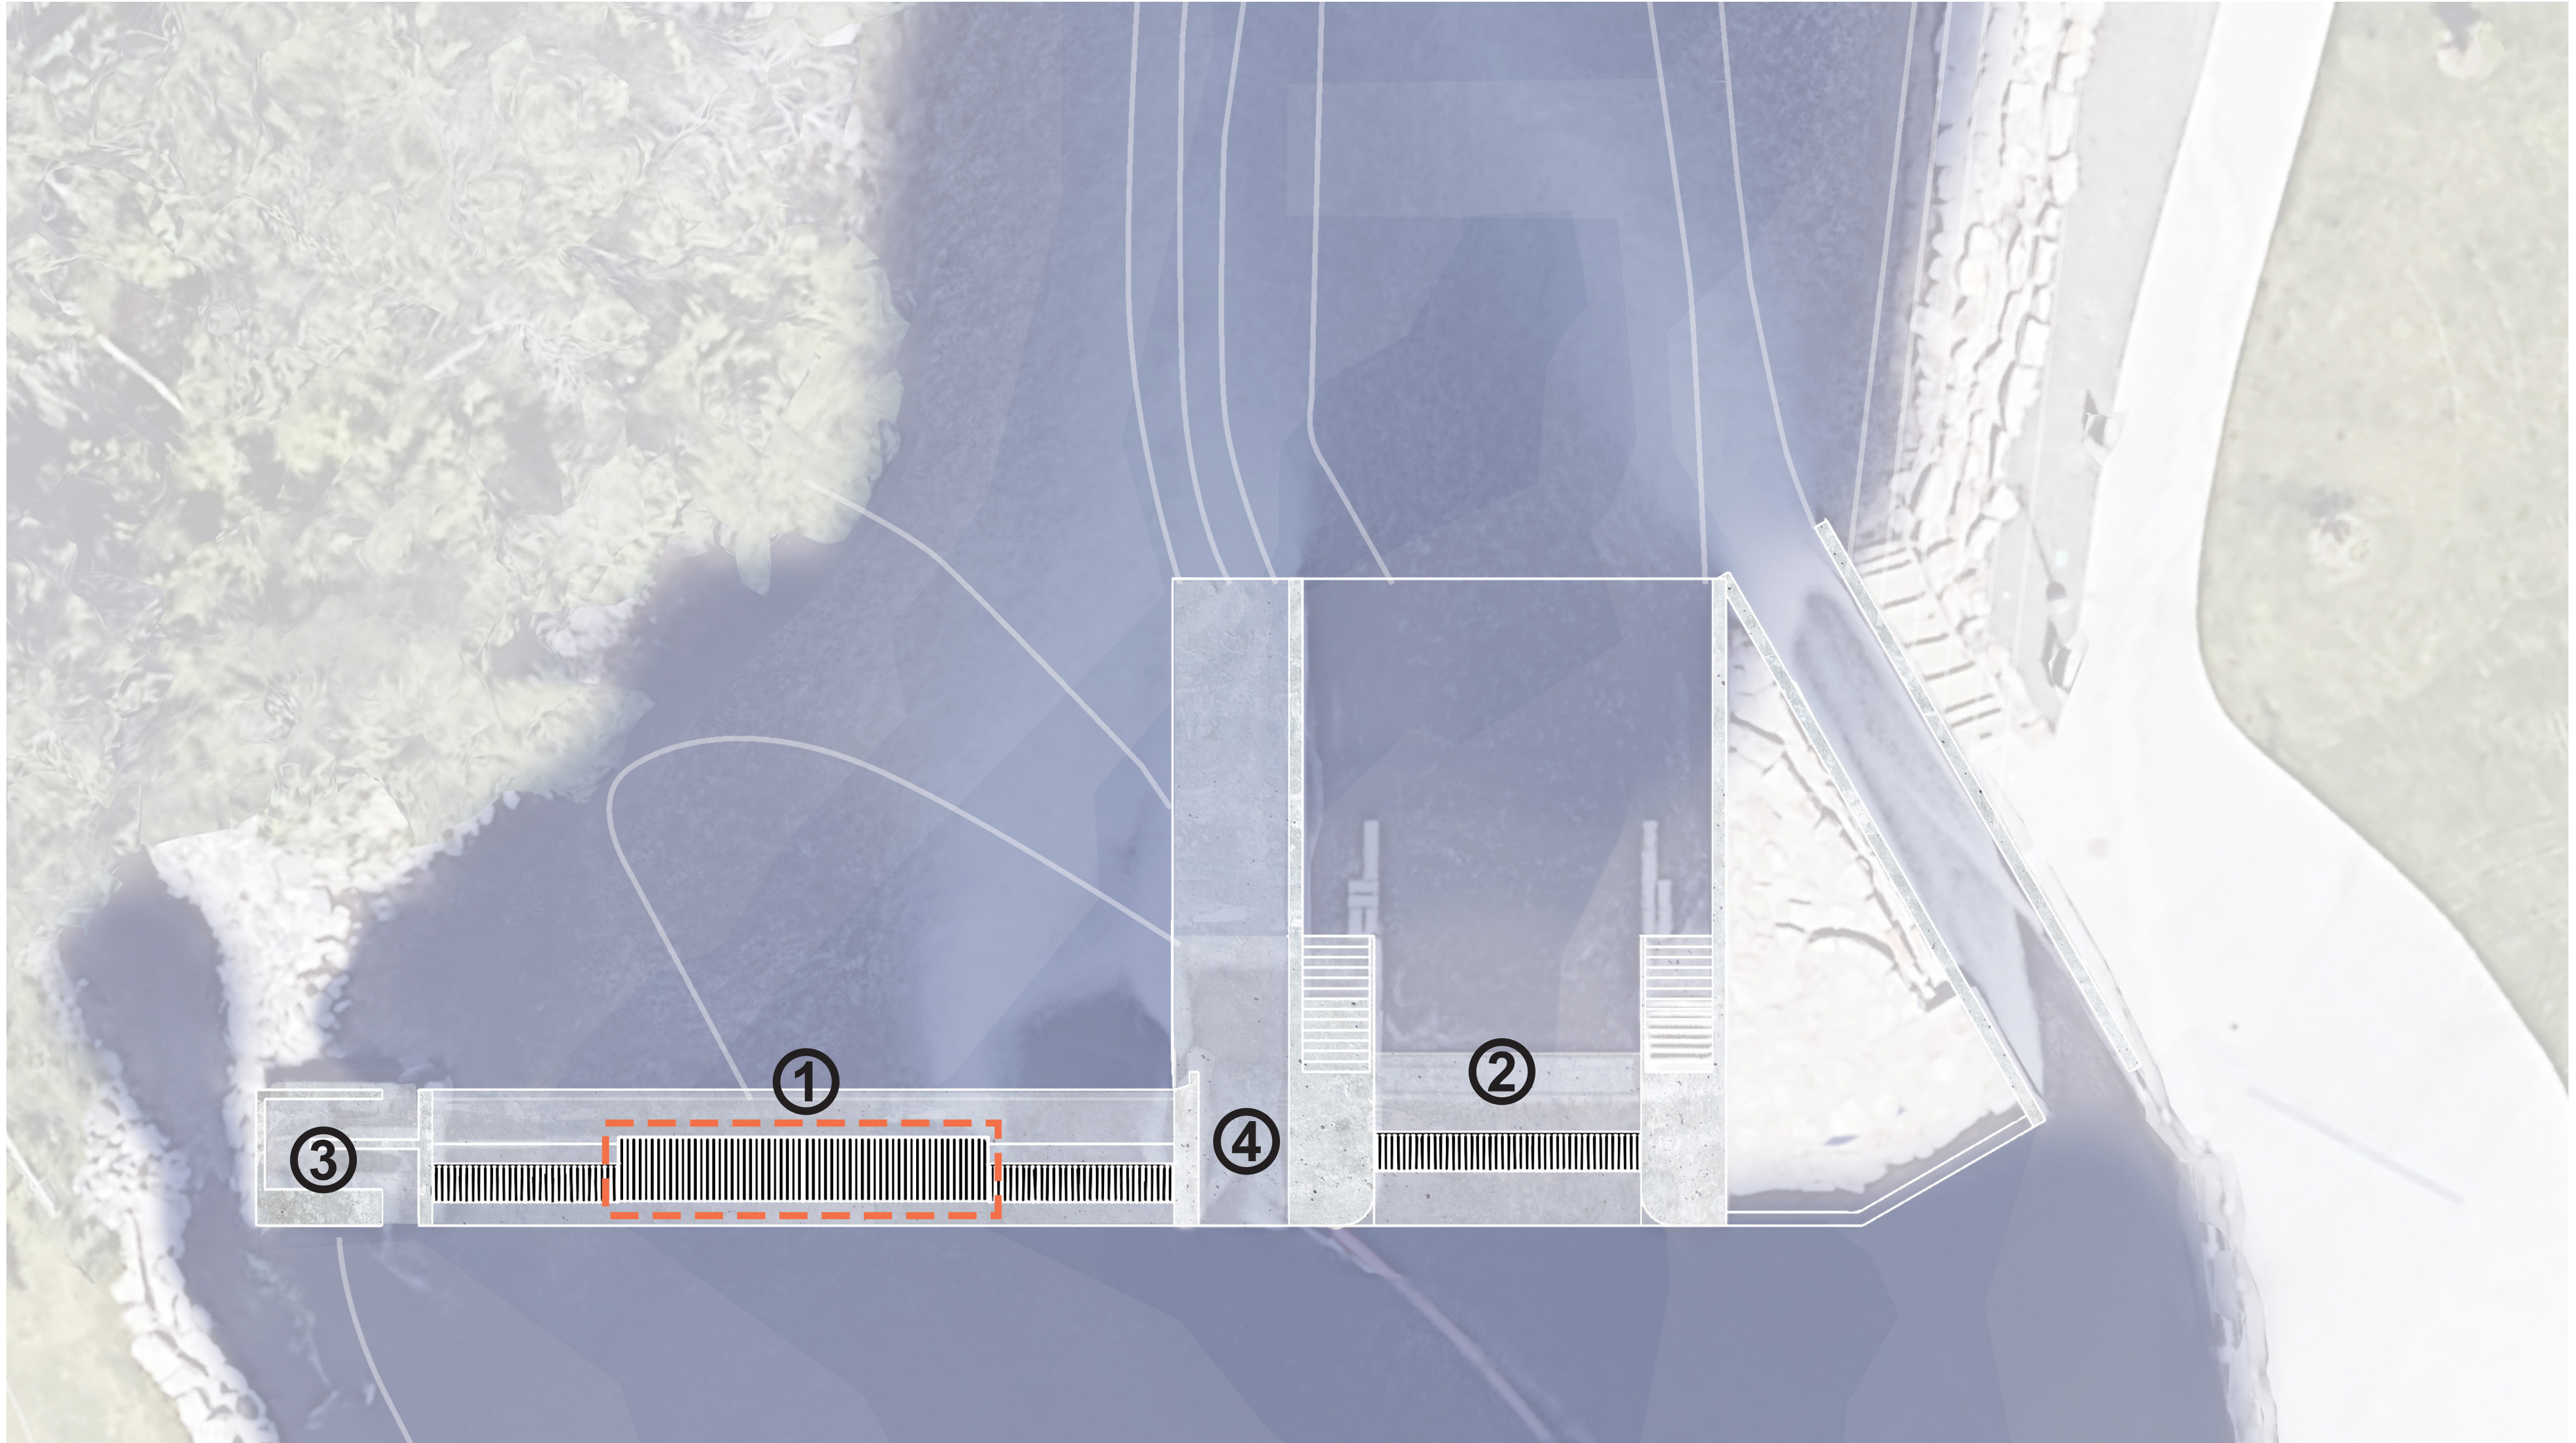

# PHASE 2 MODIFICATIONS

## CURRENT CONDITION

- ① 4 Panel Flash Board
- ③ Fish Ladder

- ② Existing Wave Structure
- ④ Floater Bypass

## MODIFIED DESIGN

- ① 6 Panel Flash Board
  - Will allow for more flexibility to modulate wave function based on river flow
  - Provides pass through option for stray boaters

- ② New Obermeyer Gate
  - Meant to provide more consistent and reliable wave shape feature
